DETAILED ACTION

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: prior art, U.S. Patent # 4,568,885 of McKenzie et al. does not teach nor render obvious a common-mode feedback circuit for a fully-differential operational amplifier that has, in combination with other limitations, bridging said first power supply terminal Vdd and said second power supply input terminal, first means for establishing a substantially constant bias current; neither does it have a multi-stage operational amplifier that has first means for establishing a substantially constant bias current; nor does it have a first MOSFET configuration for maintaining a substantially constant current to an output.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents # 4,568,885, # 5,847,601, # 6,087,897, # 5,321,370, and # 5,410,274 contain some limitations of the claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T. Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.
